Environmental policy – Damco Sweden

We believe in an environmental friendly and sustainable workplace. We strive at reaching this objective by continuously improve our environmental performance and prevent pollution. Our commitment is also to meet or exceed all applicable laws, regulations and other requirements connected to our environmental aspects.

As a leading global freight forwarding and supply chain management company, we aim to develop sustainable supply chain solutions. Our strategy focuses on:

1. Supply chain carbon footprint
2. Green product portfolio
3. Responsible procurement

Furthermore, the environmental footprint of our offices and warehouse is reduced by environmental attention to business travels, waste, chemicals and energy consumption.

Our employees are encouraged to actively participate in the improvement of the environmental work, in particular through a free and active reporting of ways and means to improve the overall environmental performance.

Soren Madsen, Nordic CEO Damco
